8.5 x 14	BIO70304	500	5000	30
11 x 17	BIO70307	500	2500	40

Executive Orders:

EO 13514 requires federal agencies to ensure that 95 percent of new contract actions, including task and delivery orders, for products and services are bio-based, where such products and services meet agency performance requirements.

EO 13423 requires agencies to acquire and use bio-based products and services.

Requirements:

Federal agencies are required to give preference to bio-based products in the USDA designated item categories. Specifications for procurement must require the use of bio-based products in these designated item categories. Additional designated items will be forthcoming. Visit USDA's Bio-Preferred Program to find additional designations.
